PROJECT 3 · FINAL PRESENTATION

Application Prep Agent

Job link + CV → a ready-to-use application pack

Nicolò Marseu · HR tech / career services · Built with n8n

WHY · THE PROBLEM

The problem, and who has it

WHO

Job Seekers or university career coach

Preps dozens of graduates a week for specific job applications.

WHAT THEY DO TODAY

Company research, CV fixes, cover letter

By hand, for every single application.

THE PAIN

1–2 hours per application

Our estimate; the pilot will measure it.

Faster, trustworthy prep means more applications per candidate and better placement rates.

HOW · THE DATA FLOW

How it works

A job link and a CV go in; a fact-checked application pack comes out by email.

Step 1
Trigger
Job link, CV and extra results

→

Step 2
Collect
Web search, company pages, news

→

Step 3
Check
Career guidelines + a fact check

→

Step 4
Write
Fit score, CV fixes, cover letter, interview prep

→

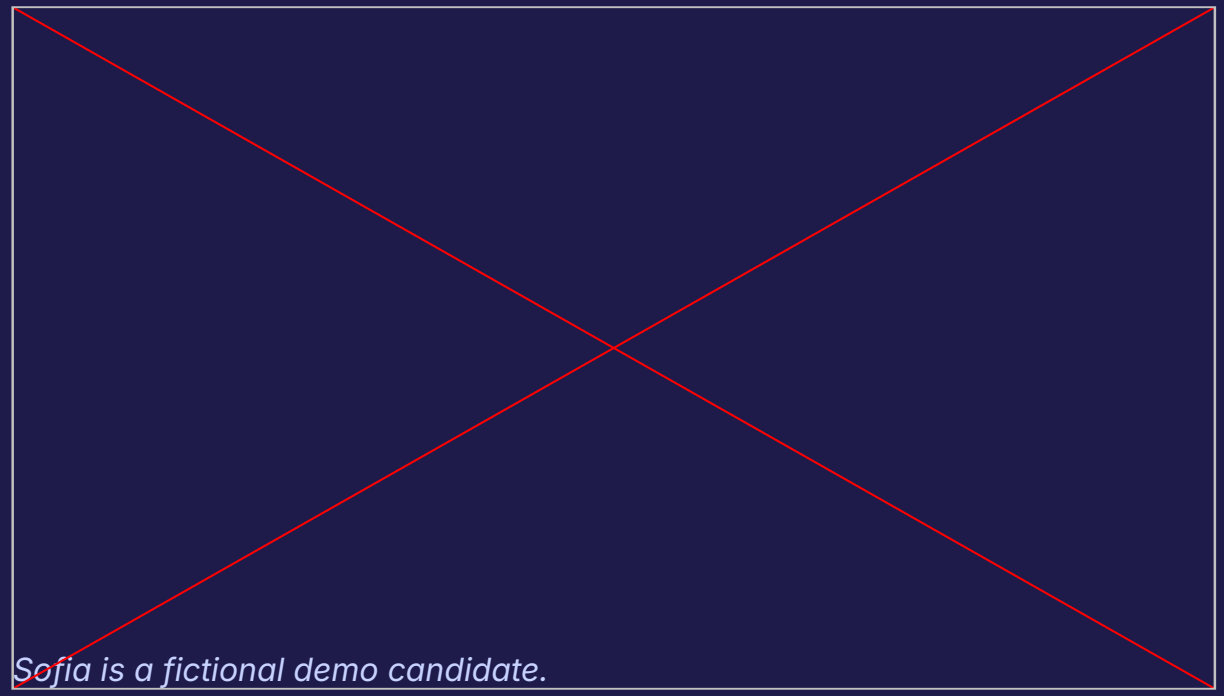

Step 5
Deliver
Email, in English or German

Weak match? It sends a short, honest note instead of a full pack.

HOW · LIVE DEMO

See it work.

Sofia’s CV + a real job posting → her application pack by email

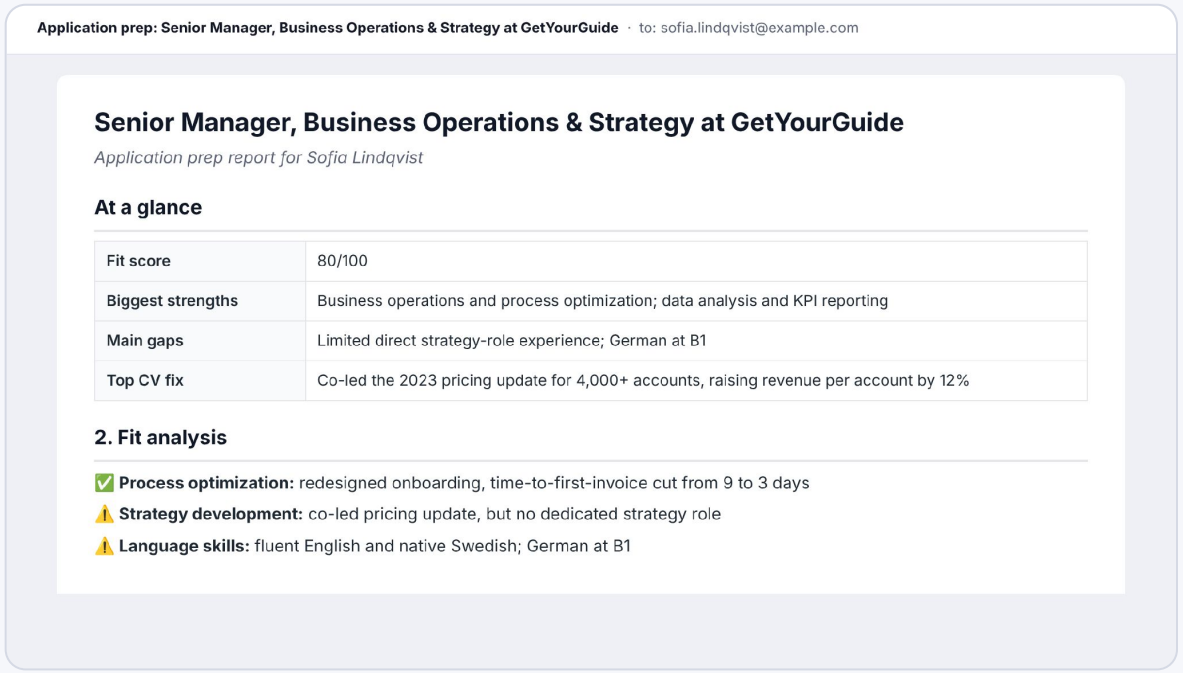

Sofia is a fictional demo candidate.

Project 3 · Nicolò Marseu

SO WHAT · THE RESULT

What the user gets

Application prep: Senior Manager, Business Operations & Strategy at GetYourGuide · to: sofia.lindqvist@example.com

Senior Manager, Business Operations & Strategy at GetYourGuide

Application prep report for Sofia Lindqvist

At a glance

Fit score	80/100
Biggest strengths	Business operations and process optimization; data analysis and KPI reporting
Main gaps	Limited direct strategy-role experience; German at B1
Top CV fix	Co-led the 2023 pricing update for 4,000+ accounts, raising revenue per account by 12%

2. Fit analysis

✅ **Process optimization:** redesigned onboarding, time-to-first-invoice cut from 9 to 3 days
⚠️ **Strategy development:** co-led pricing update, but no dedicated strategy role
⚠️ **Language skills:** fluent English and native Swedish; German at B1

≈ 3 minutes

instead of 1–2 hours by hand

Sources

Every company fact links to where it came from

Honest

Flags what it couldn’t verify, and says when a match is weak

SO WHAT · TECHNICAL SPECIFICATIONS

Under the hood

Part	What we use	Its job
Orchestration	n8n	Runs every step after the form is sent
AI model	GPT-4o-mini + OpenAI embeddings	Reads the job, scores the fit, writes and checks
Data sources	Jina Reader · Tavily · NewsAPI	Job page, company facts, recent news
Grounding	Pinecone + the candidate's own CV	Trusted guidelines; no invented facts
Delivery	Gmail	Styled report to the user's inbox
Error handling	Retries, fallbacks, fact-check loop	An API fails → no crash, no guessing

Why n8n: a form-to-email flow a non-technical career team can see and maintain.

COST PER REPORT **$0.01**

TIME PER RUN **≈ 3 min**

NEXT · GO-TO-MARKET

What’s next: go-to-market sprints

Sprint	Goal & audience	How we reach them	Deliverable	Success metric
1	Prove time saved: pilot with 1–2 bootcamp career teams	Free 4-week pilot via the bootcamp network	Coach version, feedback form, time log	Prep time −50%, 70% of reports usable
2	First paying customers: DACH bootcamps and universities	Pilot case study + 20-min demo to 30 leads	Pricing + GDPR pack	3 paying customers
3	Scale through outplacement firms	White-label partnership	Branded version + saved candidate profiles	200+ reports a month within 60 days

Each sprint unlocks the next: proof, first sale, scale.

Thank you.
